THE GREAT MIGRATION KENYA AND TANZANIA

July 22 – August 6, 2012

An Africa safari touches something deep within all of us and it's an experience that you will never forget. On this **16-day private safari** in Kenya and Tanzania you'll witness **the annual wildebeest migration**, one of East Africa's most definitive safari experiences.

Experience the most abundant and varied wildlife in East Africa. You'll see the "Big Five", lion, leopard, elephant, black rhinoceros and Cape buffalo, as well as some incredible birdlife.

In Kenya explore Nairobi, Masai Mara, Lake Nakuru, Amboseli and the Great Rift Valley. In Tanzania visit Lake Manyara, Serengeti, Olduvai Gorge, Ngorongoro Crater and Tarangire. You'll stay in exquisite lodges and spend two nights in a tented camp and have private guides and drivers throughout.

**"Safari" is the KiSwahili word for journey.
Join us on this Perfect Journey to Africa!**
